

We have designed our Sixth Form Careers Programme to ensure that it meets the needs of all our learners, no matter what their onward destination is. Our careers programme is fully compliant with the Gatsby Benchmarks.

Throughout their time at PH6, students will have a range of opportunities to learn about different careers and the potential pathways they could take to progress into this career.

All students have access to:

- Careers newsletter full of opportunities from employers, universities and careers organisations
- Employer talks where students will hear from different employers about their jobs and routes into these job roles. In the past, employers have included Nationwide, St James's Place, Wiltshire Police, Amey, NHS, Aldi and many more!
- Drop in where students can access support from a qualified and impartial career advisor. Students can access this support as many times as they need to.

In addition to this, in Year 12, students will take part in:

- A visit to a university
- Workshop about options at the end of Year 13 (University, Degree Apprenticeships, Further Education, Gap Year or Employment)
- Workshop about Degree Apprenticeships
- UCAS Workshops around Personal Statements and the application process
- Access to Work Experience opportunities, including Virtual WEX

In Year 13, students will then have tailored advice depending on their aim. Each student will fall into one of the following groups:

**University (Early Deadline)** - Students will take part in early support for their personal statement as well as support to prepare for their admissions test.

**University (January Deadline)** - Students will have support to complete their personal statement, portfolios and prepare for interviews. We also offer a talk to parents and carers to help them better understand the UCAS process.

**Apprenticeship/Employment** - Students within this group will take part in a range of inputs including how to register for apprenticeship account, how to apply for vacancies and how to prepare for interview. The weekly newsletter will also ensure they are kept up-to-date with local, regional and national opportunities.
