

Level 3 Courses: September 2024

At PH6, we pride ourselves on our broad curriculum and high-quality teaching and study support. Below is our course offer for September 2024. We recommend that students take three subjects, with the EPQ and Core Maths as supplementary fourth subjects. Core Maths is recommended for those who are studying: Psychology, Business, Economics, Biology, Chemistry or Physics, but are not studying A Level Maths.

At the initial application stage, we ask students to select and rank their top five subject choices. At the interview stage we narrow down their choices to three or four subjects. We do allow students to select up to two of the Art and Design options, as we recognise the importance of a creative curriculum at sixth form level.

We are delighted to be offering three new subjects for September 2024: Classical Civilisation, Criminology and Philosophy & Ethics.
