Berkshire School Aged Immunisation Team

Date: 18th October 2021

Dear Parent/Carer,

**Information for Parents/Carers whose child has NOT received the Covid-19
Vaccination in School**

The school-aged immunisation team have been advised that from next week all children and young people aged 12-15 will be able to access a single dose of a COVID-19 vaccine via the National Booking System (NBS). This offer will vary dependent on where you live e.g., GP, mass vaccination centre.

You should receive a letter from the national team outlining this 'out of school' offer, which will advise who is eligible and how to book.

Kind Regards,

Berkshire School-aged Immunisation Team
